

Third Congress Gruppo Nazionale Bioingegneria (GNB)
Roma, 26-29 June 2012
Università Roma Tre

GNB 2012 is the National Congress of the Italian Group of Bioengineering.

It is aimed at promoting and coordinating educational, research and technology-transfer activities carried out in Italy in the field of bioengineering. The GNB 2012 Congress will host keynote lectures from leading national and international bioengineering experts and an exciting programme of oral and poster contributions providing a comprehensive overview of the most recent research advancements in Bioengineering in Italy.

Important dates: 15th February, deadline call for speakers, deadline abstracts, deadline participation to Young Researchers Award.
